

BIOLOGICAL TREE SERVICES

has been actively involved in benefiting the community any way it can.

The BTS green van that was donated.

We volunteer and support the work of the Honor Sanctuary, a non-profit animal rescue.

This summer we donated our one-ton Dodge van to help with collecting and moving rescued animals.

“Our new Mobil Adoption Van is just wonderful. Your donation of your used van is doing great good for many animals.

We appreciate that you care so much, and can only say THANK YOU.”
